

# Baby Bottle Boomerang – 2026

## Online Giving Option

Baby Bottle Boomerang helps raise awareness and funding for **Safe Harbor Pregnancy Medical Center**. You may use online giving **alongside traditional bottles** (cash/checks) or run the **entire campaign online** to accept electronic donations.

### How Online Giving Works

- We create an **individual giving page** for each participating church or organization.
- Each page shows:
  - Total donations for that church
  - Total donations from all participants
  - Cash and check donations added to the totals
- Liaisons can view their page anytime to track their progress and the overall campaign.

### Accessing the Online Giving Page

- Each baby bottle will include a **web link and QR code** that direct people to the BBB giving page on our website.
- From this central giving page, donors can select their specific church's link.
- Donors may either **type in the link** or **scan the QR code** with their phone.

### Fully Online Option

- If a church prefers to make BBB **completely online** (no bottles), we will send the coordinator a link and QR code to share.
- Churches can include this information in bulletins or present it during a service when announcing the promotion.

### Why Offer Online Giving?

- It provides an additional, convenient way to participate.
- Easy access may encourage **new donors**.
- Public progress tracking can help generate **enthusiasm and engagement**.

### How to Sign Up

If your church would like to offer online giving, indicate this when registering for BBB at:

**[www.shfriends.org/bbbregistration](http://www.shfriends.org/bbbregistration)**

Please specify whether your campaign will be:

- **Online only**, or
- **Combined** (bottles + online giving)
